

St. Joseph the Worker School

"Where Faith and Education Come Together"

St. Joseph the Worker School is pleased to provide students and employees with access to the school computer networks for Internet, electronic mail and other services. We believe that the use of such services will greatly enhance learning opportunities for our students. Technology is one of the tools that students will use to develop the competencies they will need to be successful in life and work. Information and communication technology is an integral part of our students' education.

St. Joseph the Worker School computers, software, networks, electronic systems and access to the Internet are intended for educational or research purposes and for conducting valid schoolwork. It is presumed that all school computer resources will be used in a responsible, efficient, ethical and legal manner. St. Joseph the Worker reserves the right to review any material stored on the school computers or on the school server. Inappropriate use could result in the cancellation of computer privileges and may result in additional disciplinary measures.

This Responsible Use Agreement is required for student use of any digital device in St. Joseph the Worker School. The agreement will be reviewed each school year with students and teachers, together and will provide a springboard for teaching and learning around topics such as Internet safety, digital citizenship and ethical use of technology.

I agree to the following:

- I will use digital devices in school for learning
- I will use technology/Internet only with permission
- I will keep my personal information such as home phone number, and address private.
- I will show respect for myself and for others when communicating through technology

I know that using that using digital devices is a privilege and when I use them responsibly I will keep that privilege.
